

Making your resort better than ever!

New projects underway at South Beach Resort

South Beach Resort is a great location right in the heart of beachside fun. As your new resort owner/developer, our goal is to help make your resort experience the best it can be every time you visit. With this in mind, we are planning several resort enhancement projects scheduled for completion by early 2010.

Recently, we've completed the new sales center in Building H and have begun construction of *Signature Collection* villas, our newest luxury product, in Building C.

Beach Club Gets a Makeover

Another project you'll be particularly excited about is coming to the *Oceanfront Breezes Beach Club*. Beginning this fall, to minimize guest disruption during our busy season, the Club's main building will undergo interior renovations.

The second floor lounge will undergo a complete makeover, creating a relaxing retreat for you to escape the sun, play board games, watch television and socialize with friends and family. A new color palette is being introduced to create a soothing beach atmosphere, plus fixtures, furniture and carpeting will be replaced.

The back room will house larger tables and chairs, as well as a kitchen prep area that can be used for large group gatherings and HOA meetings. Restrooms and lockers will be available, and the outdoor deck overlooking the pool will receive new tables and chairs.

Stop by this display in the main lobby to get a sneak peek at the materials and color palette coming to the Beach Club.

Other Projects on the Way

Coming later this year will be updates to the *Marketplace Deli*, followed by renovations to buildings A and B in early 2010. Landscape enhancements will also be made to help further beautify the grounds. Plans are still being finalized on these projects and we'll provide more information as we get closer to starting them.

We are excited to bring these resort updates to you and look forward to their completion. We'll continue to explore further opportunities for improvements as they are needed.

See the Front Desk if you have any questions and be sure to visit www.holidayinnclub.com/learnmore for the latest project updates.
